

PBX Administrator

We are seeking a PBX Administrator to join our team and take responsibility for numerous business critical systems and networks. The position demands a high level of accountability and technical competency.

Our company utilizes open-source technologies to do things typically accomplished with big-iron enterprise solutions. If you like to work in a team environment to tackle problems others may believe are unsolvable, this is the right opportunity for you.

Responsibilities:

- § To integrate and develop Asterisk based system with a web-based console for the dialer application.
- § Installing and troubleshooting Asterisk PBX.
- § Linux application support for mission critical services including Asterisk, Apache, and numerous other common Linux network services
- § Administration, Backup/Restore, and regular maintenance of all mission critical systems
- § This position comes some on-call responsibility to be shared with the rest of the Systems Administration team

Required Skills and Experience:

- § Experience with Asterisk VOIP phone system required (open source PBX)
- § Experience of Linux system administration experience desired, but candidates of all levels will be considered
- § Asterisk 1.2/1.4 experience required
- § Understanding of writing IVRs
- § Familiarity with Linux command line access, including file modification
- § Basic understanding of SQL, including writing queries
- § Expert Network Switch/Router administration
- § Basic understanding of telco architecture (POTS versus T1 versus DS3)
- § Ability to remain calm and effective in sometimes stressful situations
- § The desire and commitment to work effectively in a team environment
- § Must be able to communicate effectively

Preferred Skills and Experience (skills above plus):

- § PHP Experience
- § BASH Experience
- § FreeSwitch exposure/experience
- § Apache experience
- § General systems/networking experience
- § Dialer experience

Our company is rapidly growing and this position is a great opportunity to get in on the ground floor. We believe in promoting from within and investing in our employees.

With some of the smartest people in the telephony business working for us, this is a great opportunity to jump onboard and work with people who are passionate about what they do.
